A LITTLE BIT ABOUT

Peterborough grab

Peterborough grab is a new delivery app, connecting customers to local restaurants and shops in and around Peterborough.

All grab deliveries are made by **Peterborough Cars**, which means orders can be delivered further and faster, by friendly drivers who know their way around.

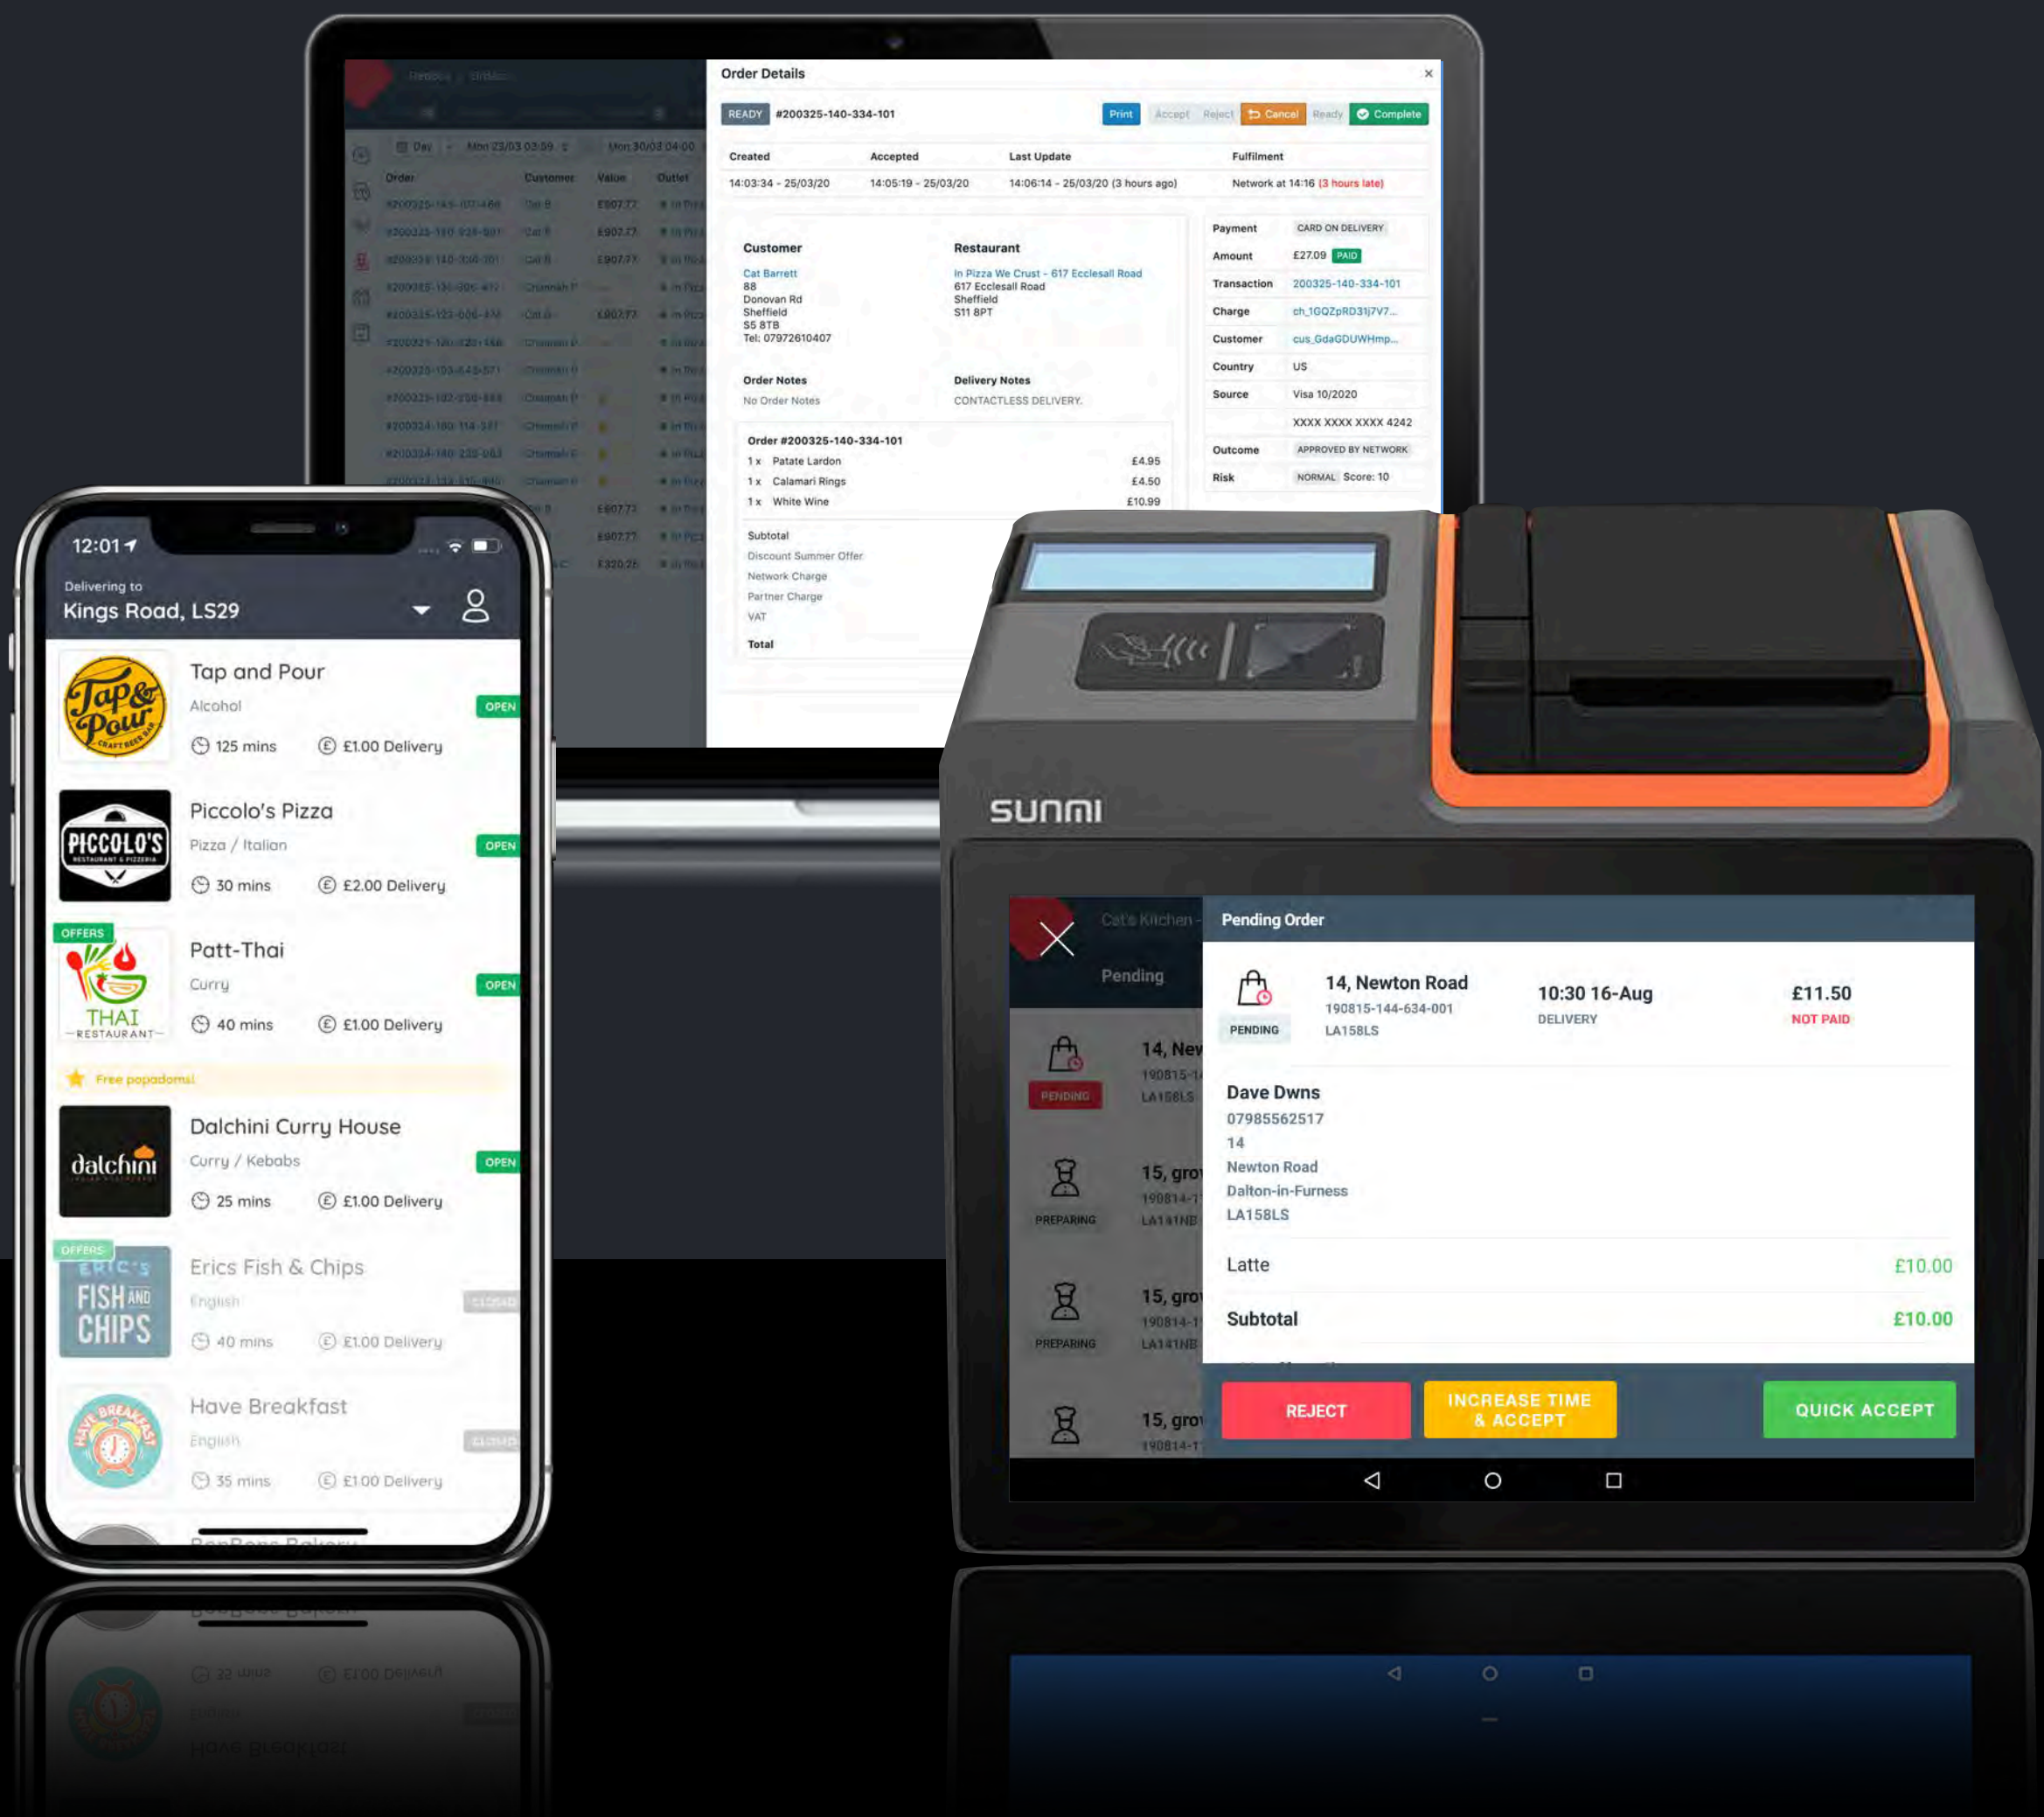

Joining **Peterborough grab** is easy, we will get your menu online and show you how to accept orders using your laptop or a terminal.

All deliveries are booked automatically with **Peterborough Cars**, so all you have to do is prepare the order and hand it to the driver!

HOW IT WORKS

What's inside

Every restaurant on **Peterborough grab**, features on our iOS App, Android App and customer website. This means your customers can place orders wherever they are on any device.

Outlets manage their orders via a 'virtual terminal', by using a laptop and printer.

For those outlets that need it, a terminal with a receipt printer can also be used.

A close-up photograph of a woven basket filled with fresh vegetables. In the foreground, a large head of green broccoli is prominent on the left. Next to it are several ears of yellow corn with green husks. To the right, there are dark green leafy vegetables, possibly spinach or chard. In the background, more vegetables are visible, including what appears to be a bunch of carrots and some purple onions. The lighting is soft and natural, highlighting the textures of the produce.
